Feedbacks

1. I am a student of SVCR government degree college. on 18.11.2021 we are blessed with a wonderful and spiritual speech delivered by Sri Yoga Swami Srinivas R.K. on the enrichment of personality development. We listened carefully from morning 10:00AM to 12:00PM. And we learnt so many things on the blossoming of beautiful character. In his speech I still remember one statement which penetrates into my soul, "A man without character is like a flower without fragrance." This sentence gives the importance of character. It was a great experience.

Thanking you.

National Voter's Day

National Voters Day is celebrated on 25 January every year. National Voters Day reflects on the importance of voting. People should take the time to recognise that when they vote in an election, they are bringing a difference. Voting is a constitutional right. People may choose to vote for someone who could bring changes to their lives.

Voting is important because it allows the citizens to choose their leaders in establishing the government, and it is the only way to participate in the democratic process.

Voting is a great way to reflect people's opinions and demand the changes they need in the country. If you vote, you will feel like you are doing something that will positively affect society.

"If you don't vote, you lose the right to complain."

Human immuno deficiency Syndrome associated with an underlying illness causing ongoing muscle loss that is not entirely reversed with nutritional supplementation. A range of diseases can cause cachexia.

Most Commonly Cancer, Congestive heart failure, Chronic obstructive pulmonary disease, Chronic kidney disease and AIDS. Systemic inflammation from these conditions can cause detrimental changes to metabolism and body composition.

In contrast to weight loss from inadequate caloric intake, cachexia causes mostly muscle loss instead of fat loss. Diagnosis of cachexia can be difficult due to the lack of well-established diagnostic criteria. Cachexia can improve with treatment of the underlying illness but other treatment approaches have limited benefit. Cachexia is associated with increased mortality and poor quality of life.

This is to inform all the students and the staff tomorrow (09.07.2018) our college is going to conduct a rally to create awareness on "ROAD SAFETY". Over 15,0000 people in India are killed every year due to traffic accidents. For a day average of 400 fatalities, India has one of the highest rates of accidents in the whole world. One of the prime reasons for these accidents is negligence of road safety norms and traffic signs. Road safety rules are not only limited to be used by motorists and drivers but also by pedestrians, cyclists, and others. Road safety campaigns are an important way to spread awareness among people about road safety measures and rules. Hence, all the staff and students have to attend this awareness rally.

The blood group of 112 students was identified through this Programme. Out of which universal donors are 37 students, 12 students are universal acceptors. 96% of the student blood group is positive (+). The remaining 4% of blood samples of the students doesn't have Rhesus factor and hence the blood group is negative. We are maintaining the blood group database of four college students to arrange blood on the spot to the needy patients in emergency.

OUT COME:

Blood grouping was done for many students.
