

INSPIRE AWARDS - MANAK ON .03.01.2022

CIRCULAR

This is to inform all the staff and the students that an awareness program on replenishing of water resources will be conducted by the National Ministry of Jal Sakthi, Government of India. The Program will bring awareness on water management, which is very essential for human life. Hence, all the staff and the students have to attend the meeting without failure on 19.02.2022 at 3.00 PM in the open ground.

PRINCIPAL
S.V.C.R. Govt. Degree College
PALAMANER - 517 408.

OBJECTIVE OF THE PROGRAM:

1. To bring awareness on water management.
2. To sensitize the students on rain water harvesting.
3. To make students ambassadors to the program in the villages and have to bring awareness on what they have learnt.

REPORT:

An awareness program is conducted by the Department of National Ministry of Jalsakthi, Government of India. Sri Sreedhar, District Officer of the program attended the program and brought awareness on waste water management. He also intimated the students to safeguard the rain water. He gave an illustration on the importance of water as a natural resource.

OUTCOME:

1. The students get awareness on importance of water.
2. They learnt the methods of water harvesting.
3. They assured to spread this in their respective villages.

feedback

Wheat is a Principal food of all Indian's
it is the seed of a kind of grass. We
grind these seeds into flour. From flour
we make bread and that is our chief
food. We call it the "stuff of life" wheat
seed is sown in cold weather but the
harvest is made in March & April. It is
a spring crop. Hence it is called a spring crop
when ripen the seeds are beaten off their
husks. It is a hard covering. Then the seeds
go to the miller who grinds them into
flour

WORLD FOREST DAY

21.03.2022

CIRCULAR:

The Department of Botany will celebrate World Forest Day on at 12 PM. The interested staff and the students can attend the program at Virtual class room in the college.

PRINCIPAL
S.V.C.R. Govt. Degree College
PALAMANER - 517 408.

OBJECTIVES OF THE PROGRAM:

The students have to understand the need for forestation methods.

The need for more trees to balance environmental pollution has to be learnt.

REPORT OF THE PROGRAM:

Awareness on forestation is created among the students. The importance of plants and their need is explained by the teaching staff of the college. The uses we receive by improving forests is delivered. Biodiversity and environmental balance is attained through forestation. The importance of oxygen is spoken. The students considered that the forest is like lungs of human life to the society. The after effects of deforestation too is explained by all.

OUTCOME OF THE PROGRAM:

The students understood the need for forests.

They developed a taste to rear forests.

LAPTOPS TO WOMEN STUDENTS BY JOINING THE DOTS

Circular

The students those whoever get selected for the receiving of Laptops must attend the meeting conducted by Joining the Dots organization at 10.00 AM in Seminar hall.

PRINCIPAL
S.V.C.R. Govt. Degree College
PALAMANER - 517 408.

OBJECTIVES OF THE PROGRAM:

1. To motivate the students to get good opportunities.
2. To encourage the women students to achieve economic independence.

REPORT OF THE PROGRAM:

Joining the Dots is an organization with which the college has entered a MoU. They gave a primary training to the selected women students of the college. Later they conducted one primary test for the students. Those who have completed the test with good percentage have been given lap tops. The lap tops are of Rs. 50,000/- worth each. A philanthropist Sri Prasanth from Bangalore came forward to give the amount to purchase laptops. The Joining the Dots organization bought the laptops and organized a meeting in the campus. They donated laptops not only to the students of the SVCR Government Degree College, Palamaner but to the students from other colleges of Palamaner also. The dais is shared in the college for the mega event.

OUTCOMES OF THE PROGRAM:

1. The students are encouraged to participate in such activities.
2. The students are motivated to get higher posts.

Feedback :-

Tam K. Madhailatha From B.com CA.

This Dot. organisation is especially useful for girls. This is the wonderful opportunity to succeed in our future for girls. I'm very happy to part of this camp. This camp tells us that how to reach our success. This is the best way to reach our goals.

yours faithfully,

K. Madhailatha.

SVCR GOVERNMENT DEGREE COLLEGE, PALAMANER

Dr.P. BABU received recognition as one of the best scientist in a survey, basing on the citations of his research papers. Thus the name of the college too is displayed in the list. The details of the survey and the ranking are given below:

India Top 10.000 Scientists "AD Scientific Index 2022 Version 1"

(Total 27.876 scientist, 2.115 university)
Version 2: April 2022 Version 3: August 2022

Rankings for Scientist

University, Subject,
Country, Region, World

"AD Scientific Index" (Alper-Doger Scientific Index):

The AD Scientific Index (Alper-Doger Scientific Index), unlike other systems that provide evaluations of journals and universities, is a ranking and analysis system based on the scientific performance and the added value of the scientific productivity of individual scientists. Furthermore, it provides rankings of institutions based on the scientific characteristics of affiliated scientists.

This new index has been developed by Prof. Dr. Murat ALPER (MD) and Associate Prof. Dr. Cihan DÖĞER (MD) by using the total and last 5 years' values of the i10 index, h-index, and citation scores in Google Scholar. In addition, the ratio of the last 5 years' value to the total value of the abovementioned indexes is used. Using a total of nine parameters, the "AD Scientific Index" shows the ranking of an individual scientist by 12 subject (Agriculture & Forestry, Arts, Design and Architecture, Business & Management, Economics & Econometrics, Education, Engineering & Technology, History, Philosophy, Theology, Law / Law and Legal Studies, Medical and Health Sciences, Natural Sciences, Social Sciences and Others), 256 branch, 14,113 institution, 211 country, 11 region (Africa, Asia, Europe, North America, South America, Oceania, Arab League, EECA, BRICS, Latin America and COMESA) and in the world. The "AD Scientific Index" is the first and only study that shows the total and the last five-year productivity

coefficients of scientists based on the h-index and i10 index scores and citations in Google Scholar. Besides the indexing and ranking functions, AD Scientific Index sheds light on academic lives and offers the user the opportunity to perform an efficient academic analysis to scrutinize and detect faulty and unethical profiles, plagiarism, forgery, distortion, duplications, fabrication, slicing, salamization, unfair authorship, and several manifestations of academic mobbing. Such analyses also help reveal the medium and long-term results of several policies implemented by institutions, including those of the academic staff employment and retention policies, wage policies, academic incentives, and scientific working environments.

One of the major differences of the AD Scientific Index is the provision of the last five years' scores and the total scores of the h-index and the i10 index, and the total and last five years' number of citations. Other unique differences of the AD Scientific Index include rankings in all fields and subjects of scientific interest and the emphasis on the scientific productivity of the scientist. Productivity Rankings is a unique service offered only by "AD Scientific Index". This is a ranking system derived from the i10 index in order to show the productivity of the scientist in publishing scientific articles of value. Productivity Rankings is an instrument that lists productive scientists in a given area, discipline, university, and country and can guide the development of meaningful incentives and academic policies. The world rankings, regional rankings, and university rankings of scientists in this table are developed based on the total i10 index. Thus, scientists and universities can obtain their academic rankings and monitor developments in the ranking over time.

Through the contribution of many scientists from different fields, the "AD Scientific Index" undergoes systematic updates with the aim of continuous improvement. The index is an independent institution and does not receive any support from any institutions, organizations, countries, or funds. Concurrently with the continuous increase in the number of universities and scientists registered to the Index, we are improving methodology, software, data accuracy, and data cleaning procedures every day through the contributions of a large team. Your remarks and contributions about our shortcomings will shed light to lead our efforts for continuous improvement.

For a more detailed explanation, please refer to our "[Methodology](#)" page.

AD Scientific Index Ltd.

Methodology

Ranking academic journals according to the impact factor is a practice that started many years ago. The need to access scientifically valuable studies within limited time frames or the need to find scientists working in a certain field has led to the procedure of ranking scientists and scientific studies. For this purpose, many scoring systems such as the h-index, i10 index, g-index, m-index, the Erdős number, tori index, riq index, and read-10 index have been studied as numerical indicators showing how productive and effective a researcher is. Each of these systems has many advantages as well as disadvantages. Of the abovementioned indexes, the most accepted one is the h-index. The h-index is determined based on the number of articles cited at least h times. In order to achieve a high h-index, an academician must have a high number of articles published and have received a high number of citations. For example, an h-index value of 15 indicates that the academician has received at least 15 citations to each of the 15 articles published. In order to increase the h-index value from 15 to 16, the same academician should receive at least 16 citations to the published 16 papers. To find the h-index value, several databases can be used including Google Scholar, Web of Science, Scopus, and Publons, some of which are public or require a subscription. In the calculation of h-indexes, such databases use different parameters including SCI-E or indexed journals or non-indexed auxiliary elements such as other journals, books, or patents. Because the set of parameters used by each database are different from those used by others, each database may calculate different h-index values. Therefore, h-indexes calculated by each of the Google Scholar, Web of Science, Scopus, and Publons databases may be different for the same researcher. For example, a researcher, who has authored several books more than scientific papers, may receive a low h-index score in the Web of Science despite a high number of citations received. Neither of these indexes is equivalent to the other because of differences in their scopes.

Having a large number of publications indicates that the researcher is productive, but data alone may not be the actual indicator of the success of the researcher. For example, a researcher may have 10 publications that have received 400 citations. We can argue that this researcher is more successful than a researcher having more than a hundred published papers that received, let's say, 200 citations. Besides, some valuable studies may not have been attributed the actual value they deserved because of various reasons such as the failure of the use of adequate methods that would enable easy accessibility through scientific channels. The high number of the use of papers as references by other authors shows the value and extent of contribution to the scientific literature.

The i10-index is another academic scoring system, in which the scores are calculated by Google Scholar. In this scoring system, only scientific studies such as articles and books that have received 10 or more citations are taken into consideration. The number of studies that have been cited ten or more times yields the i10-index value. The i10 index and the h-index values calculated for the last five years do not show that the article was written and published in the last 5 years. Instead, these

PROGRAM NAME: NATIONAL YOUTH DAY CELEBRATION

PROGRAM DATE: 12.01. 2021

TIME: 11.00 AM

VENUE: VERANDA

RESOURCE PERSON: NSS Units

CIRCULAR

All the staff and the students are informed to attend the meeting on National Youth Day Celebrations on 12.01.2021 at 11.00 AM. The Celebrations are meant to recall the preaching of Swami Vivekananda.

PRINCIPAL
S.V.C.R. Govt. Degree College
PALAMANER - 517 408.

OBJECTIVE OF THE PROGRAM:

1. To equip the students with the precepts of Swamy Vivekananda.
2. To enrich the students with the knowledge of learning in righteous way.

REPORT:

To mark the birth day of Swamy Vivekananda National Youth day is celebrated in the campus. The verandah of the Commerce block is decorated and is made ready for the celebrations. The young scientist of Palamaner Mr Pavan is invited as the chief guest of the programme. Though he had simple education with his simple methodical and rationale thinking he created and made many types of equipment that are helpful to modern day man. He brought all his discoveries and displayed them to the students. He motivated the students with his speech on himself; how a common boy transformed into a scientist. His Robo; that serves during the COVID, the sensor of Gas leakage and his app for women safety attracted the students very much. The program is presided over by the Principal, IQAC Coordinator of the college and NSS Program officers.

Volunteering is important because it provides assistance to nonprofit organizations and other causes aimed at bettering the community. Several charities and other organizations rely on volunteers to achieve their goals and remain productive.

Without volunteers, these nonprofits are not able to function at their highest level.

- 1) Saves money that nonprofits would need to spend on paid employees.
- 2) Helps meet local needs required for the community to function at its best.
- 3) Supports families and other individuals in the community who cannot support themselves.
- 4) Improves educational systems.
- 5) Helps volunteers build valuable experience and skills.

The importance of a balanced diet can't be emphasized enough for a healthy lifestyle. A healthy lifestyle can be attained by maintaining a balanced diet and keeping into consideration to meet all the essential nutrients required by the body. A proper meal plan helps to attain ideal body weight and reduce the risk of chronic diseases like diabetes, cardiovascular and other types of cancer. In this regard, NSS units of our college are organizing an awareness program on "Healthy Food-Healthy Life" at Virtual Classroom from 11:00 AM onwards on 30 September 2019. All the staff and students are advised to attend this programme.

PRINCIPAL
S.V.C.R. Govt. Degree College
PALAMANER - 517 408.

OBJECTIVES OF THE PROGRAMME:

To make students healthy.

To bring awareness on healthy food and healthy life.

REPORT OF THE PROGRAMME:

The NSS unit organized an awareness program on “Healthy Food-Healthy life” at Virtual Classroom Hall of the college. Smt. Rajeswari, CDPO, ICDS Project, Palamaner addressed the gathering and explained the importance of the Healthy Food and Healthy Lifestyle. She suggested limiting the consumption of non-vegetarian food. She also advised to include more fruits and vegetables in the regular diet, eat seasonal fruits, drink water at regular intervals and do regular physical activity to lead a healthy life. Smt. B. Lakshmi Prasanna Latha, Lecturer in Zoology, SVCR Govt. Degree College addressed the students that “ Busy lifestyle makes one to slip into the habit of choosing unhealthy snacks and take-away foods or spending our free time watching TV or in front of the computer. These choices can be dangerous for the health in the long-term. Hence it is very important to follow a healthy lifestyle”. Sri. Ravi, Lecturer in Zoology, suggested the students to minimize the screen time and be active through playing real games. ICDS Project Supervisors also suggested tips to maintain good health. Sri. P. Bhanuprakash, NSS Program Officer advised students to avoid eating Chinese fast food because tasting salt used in excess during its preparation many health problems.

OUTCOMES:

The students are sensitized on the healthy life methods.

The students promised to follow the healthy habits.

National Voters' Day 2020 will be celebrated across the country on January 25. The day was first celebrated on January 25, 2011, to mark the Foundation day of Election Commission of India. The Election Commission of India, or ECI, was established on January 25, 1950. National Voters' Day 2020 marks an important milestone in the history of Indian democracy as the Election Commission of India completes 70 years of its existence. To encourage the youth to participate in the vote in the electoral process; college is going to conduct 2 Day National Voters Day Programme on 24th and 25th January. All the staff and students are requested to attend as it not only encourages the youth to participate in the electoral process but also focuses on the fact that the right to vote is a basic right.

PRINCIPAL
S.V.C.R. Govt. Degree College
PALAMANER - 517 408.

OBJECTIVES OF THE PROGRAMME:

- To sensitize the students on the need for enfranchisement.
- To create awareness on the need for voting.

REPORT OF THE PROGRAMME:

The National Voters' Day is celebrated all over the country on January 25 every year since 2011 to mark the Foundation day of Election Commission of India. The main purpose of the National Voters' Day celebration is to encourage, facilitate and maximize the enrollment, especially for the new voters. On 24-01-2020, National Voters' Day was celebrated through an awareness program organized by NSS Unit of SVCR Govt Degree College. This program was presided by our Principal-Dr. P.Babu and explained about the history of voting. The eligibility and procedure to get Voter identity card was explained by Tahsildhar, of Palamaner. Sri. Palamaner Balaji, MPDO, V.Kota explained the importance of franchising the vote. NSS volunteers and students clarified their doubts on voting procedure with the Tahsildhar. A total of 195 students participated in the Program. Refreshments were distributed to the NSS volunteers.

On 25-01-2020, Principal administered a pledge to the students and Staff of the College on the importance of voting. Later NSS volunteers participated in an awareness rally to encourage more young voters to take part in the political process. The rally was started from college and carried up to the Gudiyatham main road.

OUTCOMES:

- Rally has been conducted to create awareness among the common people.
- The students get sensitized on the need for voting.

24-01-2020&25-01-2020

National Voter's Day

National voters day is celebrated on 25 January every year. National voters Day reflects on the importance of voting. People should take the time to recognise that when they vote in an election, they are bringing a difference. Voting is a constitutional right. People may choose to vote for someone who could bring changes to their lives.

Voting is important because it allows the citizens to choose their leaders in establishing the government, and it is the only way to participate in the democratic process.

Voting is a great way to reflect people's opinions and demand the changes they need in the country. If you vote, you will feel like you are doing something that will positively affect society.

"If you don't vote, you lose the right to complain."

Tobacco kills 8 million people worldwide each year, mainly in low- and middle-income countries where 80% of the world's smokers live. However, not only smokers are at risk, second-hand smoking causes 1.2 million deaths per year. Tobacco use is a leading cause of multiple cancers such as oral cancers, lung, liver, stomach, bowel and ovarian cancers, as well as some types of leukemia. Quitting at any age can make an immense difference for the user, increasing life expectancy and improving the quality of life. Therefore, Sri Venkateswara University is organizing a WORKSHOP ON TOBACCO CONTROL on 27th December, 2019. All the interested students can contact Dr.P.Bhanu Prakash, Lecturer in Chemistry for more information.

PRINCIPAL
S.V.C.R. Govt. Degree College
PALAMANER - 517 408.

OBJECTIVES OF THE PROGRAMME:

To sensitize the illiterate villagers on the hazards made by tobacco.
To get first hand knowledge on the problems created through consuming tobacco.

REPORT OF THE PROGRAMME:

P.Bhanuprakash-NSS Program officer along with two NSS volunteers-M.Ganesh and P.Laksman Reddy has participated in the one day workshop on “Pledge for Life- Tobacco free youth” at S.V. University, Tirupati.

OUTCOMES:

The students and the Program Officer get sensitized.
They can spread the same message in the villages.

CREATE-YOUR OWN WORLD NO TOBACCO DAY WORKSHOP:

World No Tobacco Day (WNTD) 2020 aims to protect children and adolescents from industry manipulation and prevent them from nicotine and tobacco use.

This Campaign Toolkit includes various activities that can be implemented by teachers in the classroom setting - whether virtual or in person or by parents at home. These activities will serve to expose tobacco and related industry tactics to hook youth on nicotine and tobacco products and empower youth to refuse industry manipulation and join the tobacco-free generation.

OBJECTIVES:

Give our target audience [boys and girls aged 13-17] the opportunity to expose industry tactics observed in their community, practice the art of refusing tobacco products, Shisha or e-cigarettes in a safe environment.

PROGRAM NAME: AWARENESSPROGRAMME ON OPEN DEFECATION FREE

PROGRAM DATE: 13.10.2017

TIME: 09.00 AM

VENUE: PENGARGUNTA VILLAGE PALAMANER

RESOURCE PERSON: NSS UNIT

CIRCULAR

The Government of India instructed the young students and the NSS Volunteers to spread the message on Open Defecation Free society among the villagers. Hence, an awareness program is going to be conducted by the students and the volunteers of the NSS units in the village Pengaragunta, Palamaner Mandal.

PRINCIPAL
S.V.C.R. Govt. Degree College
PALAMANER - 517 408.

OBJECTIVE OF THE PROGRAMME:

The objective of the program is to sensitize the villagers to have toilets and to put an end to open defecation.

REPORT OF THE PROGRAMME:

NSS Unit organized awareness Programme on "Open Defecation Free" (ODF) at Pengargunta Village on 13th October 2017. The NSS PO explained the school children about effects of Open Defecation and need for ODF village. Awareness rally on "Open Defecation Free" was conducted in the village along with school children. Later, the volunteers involved in door to door campaign and explained them to use IHHL scheme by Govt of A.P to make the village ODF. The volunteers also briefed the villagers about contaminations from open defecation which not only leads to pollution of the ground water but also contaminates agricultural produce, spreads diseases like diarrhea and cholera.

OUT COME:

The students did their best in sensitizing the villagers. Sri E. Chandra Naidu, lecturer in Commerce received praise from the District Collector, Chittoor for his endless effort in the activity. He made nearly 400 villagers to construct toilet in their home premises.

url of the activity: The students clapped for motivating the villagers of Pengaragunta.
